**REPORT ON FIELD STUDY TO KAZIRANGA
NATIONAL PARK**

Overview of the program

Name of the programme: Field study to Kaziranga National Park

Objective of the Program: To observe and study the habit and behavior of animals in their natural habitats. For the biological sciences in particular, field-based education is essential since it offers the core training for fields like behavior, ecology, evolution, systematics, and conservation science.

Under the course: ZC102P

Date: 17.12.2021

Organized by: Department of Zoology, Gargaon College

Visited by: B. Sc. 1st semester students and teacher in-charge

Number of participants: 43

Nature of Activity: Extension and Outreach

Brief report of the program

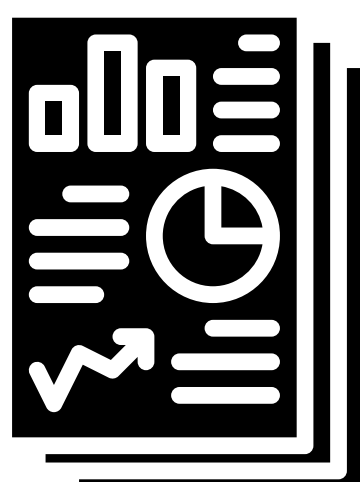

A field study was conducted to Kaziranga National Park by the students of B. Sc IstSemester Department of Zoology, Gargaon College, as part of their syllabus on 17th December, 2021. A total of 43 number of students along with the teacher in-charge Dr. RinaHandique and PimilyLangthasa went to the trip. The trip was carried out to explore the flora and fauna of the national park existing amidst the natural ecosystem and the existing interrelationship among them. The field visit enriched the students with adequate knowledge on the natural ecosystems and the diversity existing therein.

Rationality of the program

The outreach programs helped the students to understand the animals and their behaviour in their natural habitats. Additionally, the field study provides a general overview of the existing biodiversity of Kaziranga National Park, current threats and our contribution for its sustenance. For the biological sciences in particular, field-based education is essential since it offers the core training for fields like behaviour, ecology, evolution, systematics, and conservation science.
