REPORTS OF MENTORING SESSIONS

Name of the Mentor: Mr. Diganta Konwar

As a part of mentorship programme I was involved closely with my students. It enabled me to know better my students, specially their strength and weakness, their socio-economic and cultural conditions, their belief system etc. After interaction at regular intervals I was able to deliver some solutions to their constraints. They expressed their feedback regarding various teaching-learning methods of our faculty members. I also came to learn about the aspiration of my mentees which has helped me to guide them further for higher studies and career options.

The main challenges in mentoring our students are found in their limited knowledge level in diverse area of education. Basic knowledge related to life skill is most urgent need of the hour. Together as a teachers community we have to guide our students to face tough days coming ahead with the fast changing technology. My experiences and insights helped my students to set new dreams and goals which in turn guided them in exploring opportunities and resources by engaging themselves in continuous learning process.
