Brief report of the program

The Botany Department of Gargaon College organized a Lecture series on different aspects related to Botany for the benefit of students. The series was addressed by the Vice Principal of Gargaon College, Dr. Rina Handique. In her speech, she welcomed all the esteemed resource persons and thanked the organizers for taking up the initiative. The coordinator of the series and Head, of the Department of Botany, Gargaon College Dr. Dimbeshwar Das introduced all the speakers to the participants. On the first day, Dr. Rajib Gogoi briefly explained his journey as a plant taxonomist. He also talked about his publications and precisely gave an insight into Plant Taxonomy and how to identify plants. The student's awareness of local plant resources in Indigenous knowledge systems and their potential futures was enhanced by Dr. Asish Kar on the second day. He discussed the development of IKS, the several medications that were found in India using traditional knowledge, the potential of IKS in agriculture, the use of flowers as vegetables, and other topics. He also highlighted the harvest and revenue from the cultivation of packing leaves. The third day's speaker, Miss Banashree Medhi, discussed mushroom farming as a profitable business. She gave an explanation of mushrooms, including how to recognize them, their nutritional value, and finally, the business potential it presented. On the fourth day, Alumni of the department, Mr. Janardan Baruah gave a discussion about sericulture and inspired the students to pursue it. Mr. Devanjal Bora presented a talk on the research trends in traditional knowledge of medicinal plants. Mr. Bibit Dehingia, on the second last day of the series, talked about the conservation of wildlife and wildlife protection. The final lecture in the series was given by Dr. Sadhan Kr. Basumatary spoke on paleobotany and plant evolution and enlightened the students about the scope of studying paleobotany. The seven-day long series was moderated by Mrs. Sangeeta Chetia and Miss Sandeepa Agarwalla, Assistant Professor, Department of Botany, Gargaon College.

Rationality

- 1.To encourage students and to give an insight about the various career prospects in the field of Botany.
- 2.To enrich the students about indigenous knowledge system and their livelihood scope.
- 3.The series also provided an opportunity to the students to get an idea about various research opportunities.

Day 6

Wildlife Conservation in Medieval India

The rhinoceros existed in the plains of the Indus valley in the vicinity of Mohan-jo-Daro 5000 years ago.

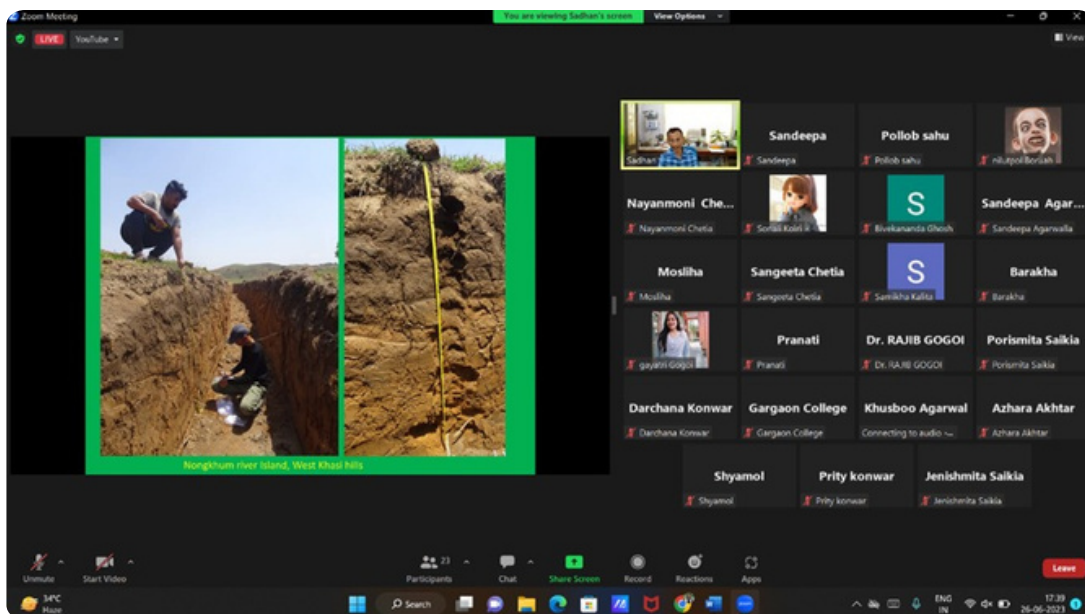

The swamp deer or barasingha was found in Mehrgarh in Baluchistan till around 800 BC

King Ashoka made a law in the matter of preservation of wildlife and environment. He was the establishment of hospital for medical treatment for human and animals; presumably the first of the "Veterinary hospital" in the world.

The *Arthashastra* divided the country between the Himalayas and the oceans into various kinds of regions - Forests (*Aranya*), Village areas (*Gramya*), Mountains (*Parvata*), Hills (*Bhauma*), Plains (*Sama*) and Uneven lands (*Visawa*).
