Highpoints of mentoring sessions

The students of each semester of the department are divided into six groups according to the number of faculty members in the department. The first thing I did was open a WhatsApp group with the students in my group.

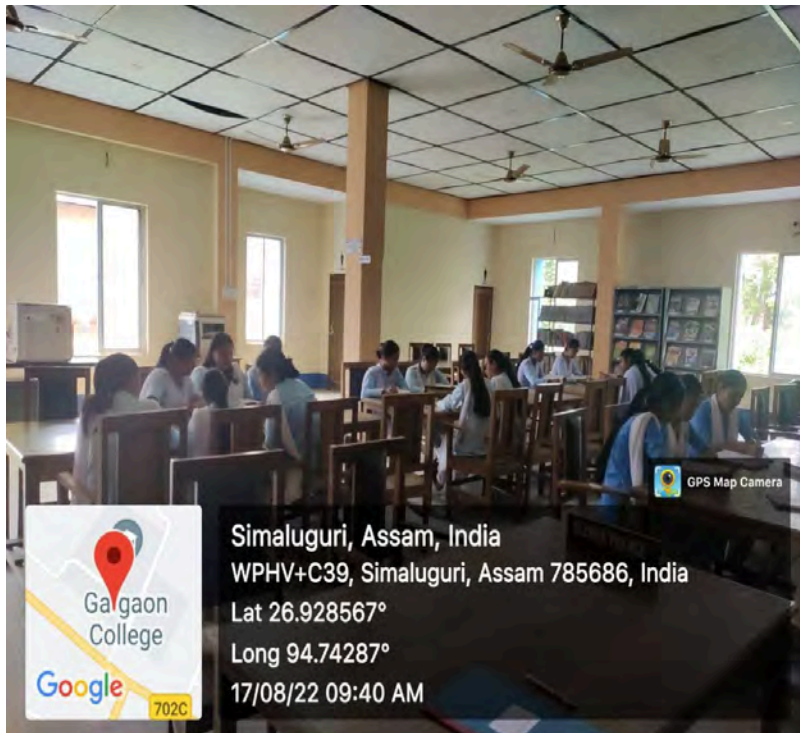

- a. They were provided with the necessary books.
- b. Curriculum related issues as well as their personal problems were discussed. Also attempts were made to resolve.
- c. They were given information about workshops and competitions organized by various organizations on literature, culture, sports etc. They were encouraged to participate in these competitions, workshops.
- d. I created a friendly environment with mentees where they could open up and talk about personal issues.
- e. They were given all kinds of assistance in mastering the subjects. They were also provided with the help they needed to shape their careers and personalities.
- f. I took some extra classes with slower learners. Advanced learners were also given additional platform for their career development.

Geotagged Photographs of mentoring session

1. Remedial class for mentees and discussion about their problems related to syllabus.

2. Library study of mentees to enhance their knowledge of various topics and discussion about life skill, their hobbies etc.
