Mentor Mentee Report

Dr. Boluram Das

Relationships between mentors and mentees are beneficial alliances that help students meet the opportunities and challenges of college life by offering them direction, support, and encouragement. These connections may be very important to a student's success in the classroom and in their personal lives. Students are assigned a specific day throughout the academic session in 2022–2023 to have in-person conversations with their mentors. The mentor verifies the pupils' attendance and asks about their general performance. Students are provided with a platform to communicate issues that they are facing in their personal and academic lives.

In addition to receiving counselling regarding their future prospects, the students are further urged to achieve academic excellence. Students with lower attendance rates are asked to provide an explanation, and if they don't receive one that satisfies, the parents are called directly. The mentees receive additional notification to reconvene and assess their progress.

4. Following the Sessional exam, their performance was assessed, and they received encouraging comments to help them do better in school.

2. The mentor attempted to offer general knowledge and extra information outside of the text book for a specific paper in place of academic tasks.
