SESSION 2022-23

(DEPARTMENT OF GEOLOGY)

EDUCATIONAL TOUR CUM FIELD STUDY 2022-23

The Department of Geology, Gargaon College conducts a course on Basic Field Training for the 5th Semester students. Field training forms an integral part of Geological Studies and the course shall be immensely valuable for the students in conceptualizing the Geosciences syllabus (viz. Paper C11 & DSE 2 of 5th semester) as well as developing their field mapping and surveying skills. As a part of the Basic Field Training, the students carried out academic tour cum field study in the Dillighat River sections on the 18th & 19th November, 2022.

The students helped the students to learn the Neogene stratigraphic succession of the Upper Assam Basin in the Dillighat river sections. Besides, the field study provided the students basic idea of the different geomorphic processes in river sections and fundamental idea on sediment deposition in the rivers.

The field study was guided by faculty members of the Department of Geology. In addition, the department laboratory bearer assisted the students in carrying out the field works.

The students were awarded a certificate on completion of the field study and submission of a field report.
