WORLD EARTH DAY

22nd April, 2024

Organized by
Department of Geography
Gargaon College

Overview

Name of the Program: WORLD EARTH DAY

Type of Program: TALK ON PLANET vs PLASTIC

Date: 22nd April, 2024

Resource person: Dr. Dilip Kumar Deka, Associate Professor, Department of Geography, Gargaon College

Number of Participants: 30

Organized by: Geographical Forum, Department of Geography, Gargaon College

About The Program

The Department of Geography of Gargaon College organized a class talk on World Earth Day, observed annually on April 22nd, aimed at promoting environmental awareness among students. The program, facilitated by Dr. Dilip Kumar Deka, Associate Professor of Geography, attracted 30 enthusiastic participants eager to deepen their understanding of environmental issues.

Dr. Deka's passion for the environment was palpable as he delved into the significance of World Earth Day. He spoke not just as a teacher, but as someone deeply invested in the future of our planet. Throughout the talk, he encouraged lively discussions, inviting students to share their thoughts and concerns about environmental challenges.

Dr. Deka's talk focused on the theme for this year's Earth Day i.e. "PLANET vs PLASTICS". Drawing from real-life examples and his own experiences, the RP painted a vivid picture of the interconnectedness of environmental issues. He didn't just lecture; he sparked curiosity and inspired reflection among his audience. His words resonated deeply, igniting a sense of responsibility in each student.

As the talk progressed, he offered solutions. He empowered students to take action, reminding them that even small steps can make a big difference. His message was clear: each of us has a role to play in protecting our planet, and together, we can create positive change.

The program concluded with a renewed sense of purpose among the attendees. Dr. Deka's words had stirred something within them, a determination to be part of the solution. Armed with knowledge and passion, they left the talk ready to make a difference, inspired to be champions for our environment.

In essence, the World Earth Day class talk wasn't just an educational event; it was a call to action, a reminder of our shared responsibility to safeguard our planet for generations to come. And thanks to Dr. Deka's guidance, each student left with a newfound sense of empowerment and purpose.

Rationality of the Program

The rationale for organizing the World Earth Day class talk at Gargaon College by the Department of Geography was rooted in the recognition of the significance of Earth Day as a global platform for promoting environmental awareness. Understanding the importance of engaging students in discussions about pressing environmental issues, the organizers aimed to create an impactful event that would inspire students to become proactive stewards of the planet. As the facilitator of the program the RP sought to provide students with a unique opportunity to deepen their understanding of environmental challenges and explore actionable solutions. By choosing the theme "PLANET vs PLASTICS," the organizers aimed to shed light on a critical environmental issue and prompt meaningful dialogue and reflection among participants. The overarching goal was to empower students with the knowledge, inspiration, and resources needed to take meaningful action toward creating a more sustainable future.
