PO10: Individuality and Teamwork

PO11: Competencies for employment

PO12: Competencies for Research

Programme Specific Outcomes (PSO)

After completing the program, the students will be able to achieve the following Programme Specific Outcomes:

PSO1: Sociological Theories:

The programme will enhance the student's learning capacity to understand society, clarify and broaden their notion about the subject, the basic concepts used, and some universal societal processes. It will aim at providing students with a rigorous and challenging way of sociological thinking by developing a sound theoretical background in the subject.

PSO2: Research Methods:

The programme will familiarize students with the Sociological way of imagining Society, develop a research interest in the subject, and train them in the use of ICT in Sociology. It will help the students examine the organization, structure, and change of social groups and institutions. This course combines rigorous methods of inquiry and analysis in various areas of research, such as mass media, the environment, racism, gender issues, class, deviance, and social control, where our students can generate their interest in later research work.

PSO3: Foundation of Sociology:

This programme enables the students to understand the foundations of Sociology. It develops the capabilities of the students to critically evaluate issues and the emerging trends influencing the field of Sociology. It also equips students with soft skills and inculcate values through value education for personal development.
